Dear **Navdeep R,**

We are pleased to welcome you as a **Web Developer Intern** at **Zyre Home Automation**. In this role, you will assist in designing, developing, and maintaining websites or web applications. You will work with front-end and/or back-end technologies to help bring digital projects to life.

This internship is a great opportunity to improve your coding skills, work in a team, and understand how real-world websites are built and deployed.

Internship Details:

- **Position:** Web Developer
- **Duration:** 2 Months
- **Working Mode:** Remote

Your Responsibilities Will Include:

- Assist in building and testing web applications using modern frameworks (e.g., React)
- Optimize websites for speed, performance, and mobile responsiveness
- Assist in deploying projects to platforms like GitHub Pages, Netlify, or AWS

We look forward to your contribution and enthusiasm as you help us grow our digital presence. If you have any questions, feel free to reach out to us at zyrehomeautomation@gmail.com.

Warm regards,

Gokulan S,

Founder,

Zyre Home Automation.
